

# 43x37 Standard Duty Pallet

## Features & Benefits

- The design of the pallet includes a mixture of complex geometric shapes and varying wall thickness at critical load-bearing and wear-points which produces a longer life cycle and a superior strength-to-weight ratio
- The high pressure injection molding production process allows for precise tolerances to be met on every pallet which assures consistent product quality
- An engineered, co-polymer polypropylene (PP) material blend is used to produce the pallet which balances durability with rigidity requirements to ensure maximum performance
- Proprietary Snap-Lock™ design feature reduces damage from pallet jacks and other material handling equipment
- Tapered bottom edges on all four sides of the pallet allows for easy four-way entry and exit by automation and material handling equipment
- Full picture frame and cruciform bottom supports full edge racking and ensures the pallet works smoothly with conveying and automated pallet handling equipment
- Roughened top deck of the pallet helps reduce case slippage and enhance load stability

## Options

- Colors: Standard, Customized, Non-Heavy Metal (NHM) and FDA Approved Colors
- Decoration: Single-Color, Multi-Color and Molded-In Branding
- Top Deck Surface: Light, Heavy or No Scuffing
- Perimeter Lip: Corner-Edge Lips
- Applied Technology: Bar Code, RFID and Proximity Marketing (NFC/QR Code) Enablement
